Alumna Talk Report on Importance Of Higher Education And Opportunities In Civil Engineering

Organized by: Department of Civil Engineering

Participants: 4th and 6th Semester Students

Location: Department of Civil Engineering, K.S. School of Engineering & Management

Date: 09.04.2025

A highly informative session was conducted by **Ms. Akhila**, a professional Civil Designer based in Toronto, Canada. The topic of the talk was ***"Importance of Higher Education and Opportunities in Civil Engineering."*** The event was attended by students and faculty members from the Civil Engineering Department and provided a valuable perspective on the significance of academic advancement and global career prospects in the field.

Objectives of the Talk:

- To highlight the significance of higher education in civil engineering.
- To create awareness about global career opportunities in the civil engineering field.
- To motivate students to upgrade their academic qualifications and professional skills.
- To provide exposure to international work environments and standards.
- To guide students on skill development and career planning.

Outcomes of the Programme

- Students understood the value of pursuing postgraduate and specialized education.
- Gained clarity on the types of global opportunities available in civil engineering.
- Motivated to enhance both technical and interpersonal skills.
- Encouraged to explore certifications and international exposure for better career growth.
- Inspired by real-life experience of a successful professional in the field.

Summary of the Programme

Ms. Akhila shared her academic and professional journey from India to Canada, offering valuable insights into the path of becoming a successful civil engineer on an international platform. She emphasized the importance of higher education in gaining advanced technical knowledge and expanding career opportunities. Through her talk, she explained the growing global demand for civil engineers, particularly in countries like Canada, where infrastructure development continues to thrive. Ms. Akhila also highlighted the significance of mastering essential technical tools and software such as AutoCAD, Revit, and BIM, which are widely used in the industry. Her talk encouraged students to focus more on the application of **modern tools** and to uphold **ethical standards in design practices**—an approach that directly aligns with the core objectives of the academic program. fields like urban planning, disaster management, and environmental monitoring.
