* Indicates required question

Student Name *

Your answer

USN *

Your answer

Which raw materials are commonly used in the block manufacturing process? *

Your answer

What level of automation did you observe in the manufacturing process of masonry blocks? *

- ☐ Fully automated
- ☐ Semi-automated
- ☐ Manual

Have you understood the mix proportion used in manufacturing masonry blocks? *

- ☐ Yes
- ☐ No

What was the estimated compressive strength of the masonry blocks observed during the visit? *

- ☐ Less than 3.5 MPa
- ☐ Between 3.5 – 5 MPa
- ☐ Between 5 – 7 MPa
- ☐ More than 7 MPa

Is the compressive strength observed comparable to the IS standard code requirements? *

- ☐ Yes
- ☐ No
- ☐ Not Sure

Did the visit help you understand how the cost of a block is calculated (materials, labor, etc.)? *

- ☐ Yes
- ☐ Partially
- ☐ No

Would you recommend this visit for future students? *

☐ yes

☐ No
