DEPARTMENT OF MECHANICAL ENGINEERING

Industrial visit to “Prabha Industry – Hosur Plant E3 & E8 Unit”

The UG Research program is a cornerstone initiative launched under the umbrella of K S Research Innovation and Foundation and Skill Development Activity, aimed at enhancing the research and practical knowledge of students. Led by Dr. Swamy D R, Executive Director & Dr. Balaji B, HOD – Mechanical Engineering Department, KSSEM, this program recently organized an industrial visit to Prabha Automotive Engineering, Hosur – Plant for sixth-semester Mechanical Engineering Students on 17/07/2024.

During the visit, a team consisting of 12 students and 2 faculty members (Dr. Abhishek M R & Mr. Harisha P) had the opportunity to explore the facilities. Mr. Chandrashekar, Plant – HR, guided the industrial tour and provided valuable insights into the operations. Prabha Automotive Engineering specializes in supplying body structures and doors for Ashok Leyland, a major customer of the industry. The plant is involved in sheet metal cutting operations, welding, and joining processes, utilizing both manual and automated techniques to manufacture final products.
